

**Your child can achieve a high grade in their exams. We believe in helping your child believe that for themselves.**

For over 15 years, we have worked hard to develop a comprehensive and truly unique educational programme that delivers results in the core subjects of maths, science and English. Built around activity-based and problem-based learning, our programme enables small class sizes to explore and experiment key topics that are likely to be addressed in exams. Not only that, it is designed to nurture a positive attitude towards learning and impart essential problem-solving and communication skills that remain relevant throughout life. Our experienced full-time teachers go above and beyond to offer support inside and outside of the classroom, including advice for each stage of your child's learning journey. Whatever the demands of your child's class or school, SmartLab is beside you, every step of the way.

**SmartLab Community Education Fund**

SmartLab has been in the education field for more than 20 years and has provided tuition to students of parents, who are in need of financial aid. The 2 grants we provide are (1) S\$500 cash grant annually to pay for courses or textbooks or guide books or any educational related services (2) Free-of-Charge tuition for 10 months from Jan-Oct. If you or your child need any advice or aid, please write in to [applications@smartlab.com.sg](mailto:applications@smartlab.com.sg) explaining the reason for the application and titled the email: SmartLab Community Education Fund Please note that only shortlisted applicant which match our criteria will be notified as we do have limited resources. Due process will have to be done including an interview before we provide the assistance.
